

**NOTE: THIS RULEBOOK IS A WORK IN PROGRESS**

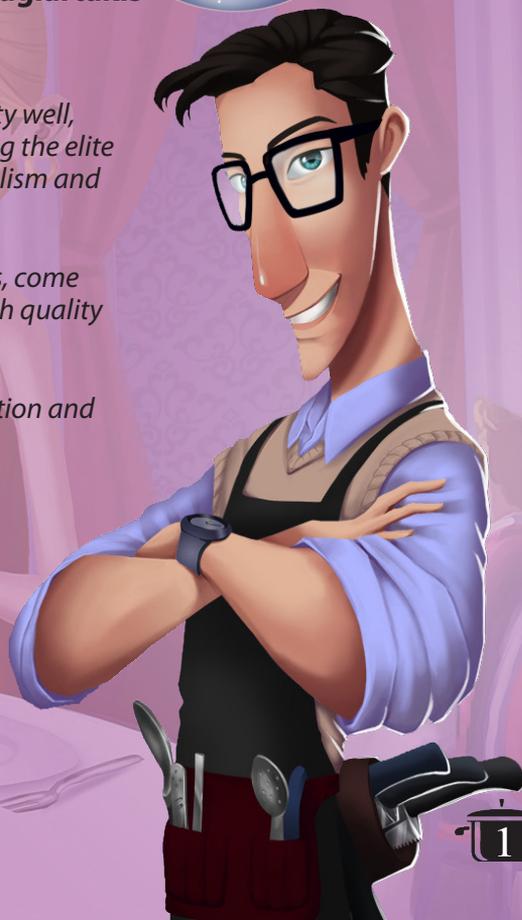

**Dávid Turczi  
Vangelis Bagiartakis**

*The restaurant you inherited has been going pretty well, already employing many acclaimed chefs and serving the elite of fine dining due to your commitment, professionalism and hard work!*

*But now, with the rise in demand of the customers, come new necessities that you need to accommodate, with quality pastry-making being number one priority!*

*Are you going to live up to your restaurant's reputation and provide fine desserts to your customers?*

Piece of Cake is an expansion to Kitchen Rush that adds desserts to the game! Prepare delicious cakes, sweet pies and tasty ice-creams! It also allows you to call in Specialists to help you in the Kitchen using the new hourglass included.

# I. COMPONENTS

## 40 Cards

30 Orders

8 Specialist Ability

1 Ice-Cream Objective

1 Upgrade

## 1 Rulebook

## 4 Player Mat Extensions

## 24 Custom Wooden Tokens (Ingredients)

12 Crème tokens

12 Fruit tokens

## 12 Wooden Cubes (Spices)

12 Brown cubes

## 1 Hourglass (Specialist)

## 1 Game Board

## 30 Wooden Domes (Ice-Cream Scoops)

6 White domes

6 Pink domes

6 Green domes

6 Brown domes

6 Yellow domes

## 1 Cardboard 3D Freezer

## 30 Cardboard Tokens

20 Ice-Cream Order tiles

6 Ice-Cream Plates

3 Specialist tokens

1 Locked token

# Game Board

The game board consists of various **areas** (like Shopping, Fridge, Freeze etc) with each one containing one or more action **spaces**.

## Player Mat Extentions

Refrigeration Time

## Ingredients

The Ingredients in the game represent many different types of ingredients used in actual cooking.

**Crème:** All types of cream (whipped, whipping, butter etc).

**Fruit:** All types of fruit (apple, orange, strawberry, cherry etc).

## Spice

The colored cubes represent various spices and herbs.

Common Spices

**Brown:** Chocolate Chips & Nuts.

## 3D Freezer

The 3D Freezer is used during the game to store your Ice-Cream scoops. Before playing for the first time, please assemble it as shown in the following diagram:

PENDING - Assembly Information - PENDING

### Ice-Cream Scoops

The colored domes represent ice-cream scoops of different flavors.

**White:** Vanilla or Cookies.

**Brown:** Chocolate.

**Pink:** Strawberry.

**Yellow:** Lemon or Banana.

**Light Green:** Pistachio.

### 3. SETUP

When setting up the game using Piece of Cake please apply the following adjustments:

- 1 Place the new Board next to the main board.
- 2 Place the Specialist Hourglass next to the game board.
- 3 Place a **Locked** token on one of the Fridge spaces.
- 4 Place 2 additional coins on the **Office** area.
- 5 Take all 5 **Upgrades** and place them face-up near the **Office** area. When playing with the expansion they are all available to get when using the **Office** action.
- 6 Give each player a Player Mat Extension. They should partially slide it beneath their Player Mat as shown in the picture below.

2 Place the Specialist Hourglass next to the game board.

3 Place a **Locked** token on one of the Fridge spaces.

4 Place 2 additional coins on the **Office** area.

5 Take all 5 **Upgrades** and place them face-up near the **Office** area. When playing with the expansion they are all available to get when using the **Office** action.

6 Give each player a Player Mat Extension. They should partially slide it beneath their Player Mat as shown in the picture below.

**7** Place piles of all new Ingredients, Spices and Ice-Cream scoops near the game board, within reach of all players.

**8** Place the **Ice-Cream Objective** card next to your chosen Objective. In addition to the chosen Objective's requirements, you will have to complete a number of Ice-Cream Orders, as indicated on the card.

**9** Shuffle the Ice-Cream Order tiles and place them face-down on the Ice-Cream Order Tiles area.

**10** Shuffle the Dessert Orders in the Order deck and place it on the Order Deck area face-down.

**11** Add **brown cubes** in the bag, equal to the number of white/green/black cubes. (either 1, 2 or 3).

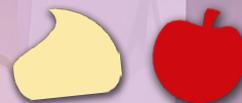

- 12 Place the 3D Freezer on the designated area. Fill it with Ice-Cream scoops according to the number of players:

					
1-2 Players	1	1	1	1	1
3 Players	2	2	2	2	2
4 Players	3	3	3	3	3

Make sure to place the lid on top of the Freezer afterwards.

- 13 Add to each **Storage** area **Crème** and **Fruit** tokens equal to the number of the Salad/Pasta/Chesse/Bread tokens (either 2 or 3).

- 14 Add to the **Clean Plates** Area a number of **Ice-Cream plates** equal to the number of sized-I/II/III plates. (either 2, 3 or 4). Add one Ice-Cream plate to the **Dirty Plates** Area and another one along with the plates near the Office area.

- 15 Shuffle the **Specialist Ability cards** and draw 3 of them. Place them next to the board so that all players can see them. Place a Specialist token on each Ability card's corresponding Action slot on the board (see **Specialist** on page ##).

## 4. NEW ACTIONS

### Freezer

*You open the freezer and get to choose the flavors of ice-cream you will be getting.*

When performing this action you get ice-cream scoops out of the Freezer and place them on the dishes you are preparing. There are two different ways in which ice-cream scoops are used:

- **Dessert Orders:** Some Dessert Orders show ice-cream scoops on them as part of the dessert. In these cases, you must prepare everything else on the Order (including Cooking and Refrigerating) and after everything else is complete, place the listed ice-cream scoops **on the same plate as the dessert** (these ice-cream scoops are part of the dessert, not a separate request by the customer).
- **Ice-Cream Order Tiles:** When an Order has an Ice-Cream Order tile on it (placed via the Maitre d' action) the ice-cream scoops are placed on a separate ice-cream plate - in this case the ice-cream isn't part of the Order's main dish but was ordered separately by the customer. If no ice-cream plates are available, you may use a size-I plate instead.

Note that ice-cream plates, after placed on your Player Mat's first row as normal, are never cooked further nor do they get refrigerated.

When checking Orders during the Cleanup Phase, if the ice-cream (and the rest of the Order) are successfully completed, you get the Order's rewards as normal. If the ice-cream was from an Ice-Cream Order tile, in addition to the rewards listed on the Order card, you also get the rewards listed on the tile.

If an Order containing ice-cream is not found to be complete during the Cleanup Phase, the ice-cream melts; you will have to discard the ice-cream scoops and the plate they were on, and prepare it again next round. This means that if it was a Dessert order, the whole dish will need to be prepared again while if it was from an Ice-Cream Order tile, you discard the ice-cream plate (what happens to the main dish of the Order will depend on why it wasn't completed - see Cleanup Phase in the main game's rules).

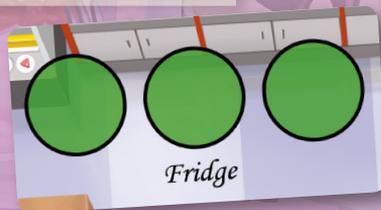

**IMPORTANT NOTE:** In order to get the ice-cream scoops from the Freezer you need to lift its lid first. After you are done, you will have to place the lid back on top of the Freezer.

If at any point during the game the Freezer is left without its lid on (and no player performing the Freezer action at that moment) all the ice-cream it contains melts. Discard all the ice-cream scoops inside it and put the lid back on top of the Freezer.

## Fridge

*You place your dessert in the fridge to make sure it is properly refrigerated before served.*

Many of the Dessert Orders require the dish to be refrigerated as indicated by the symbol with the refrigeration time. You do this by performing the Fridge action.

When performing this action, choose one of the plates on your Player Mat that needs to be refrigerated and move it one column to the left, on the Player Mat extension. You need to use the Fridge action as many times as it is indicated on the Order card (moving the plate on the Player Mat extension one step to the left each time) to fully prepare it.

When a plate is moved to the Player Mat extension, it remains on the same row it was on and may not be cooked any more. This means that you cannot perform the Oven action (and move the plate downwards to another row) or add any Spices to it. In other words, **you should refrigerate a plate only after you've made sure that all the Ingredients and Spices have been added and it has been cooked the required number of times.**

The only addition you may perform on a plate that is in your Player Mat extension is to add ice-cream scoops on it (after of course you have refrigerated the appropriate number of times).

If during the Cleanup Phase you realize that you refrigerated a plate without having cooked it enough times or without adding Spices to it, then you've made a mistake and you will have to discard the plate and prepare it again.

## Maitre D'

*You welcome the new customers and you suggest ice-creams for desserts.*

When performing this action you get 1 coin and you then draw up to 2 tiles, placing each of them on an available Orders **on the board** (you need to draw and place at least one Ice-Cream Order tile - if you are not able to do so, then the action cannot be performed)

For an Order to be able to get an Ice-Cream Order tile on it, it must not already include Ice-Cream as part of its preparation nor can it have a side-dish. If both of these conditions apply, place the tile over the card as shown in the picture below:

The Ice-Cream is now part of the Order and must be delivered with it, otherwise the Order is not considered complete. See the **Freezer** action below for more details on how an Order with Ice-Cream can be prepared.

# Shopping

*New recipes means new ingredients will have to be bought on time!*

When playing with Piece of Cake there are additional items that you can buy when performing the Shopping action. On top of the choices you have in the main game you may now choose one of the following:

- Get 5 tokens of either Crème or Fruit and distribute them among the active Storage areas.
- Get 3 ice-cream scoops in any combination and put them inside the Freezer.
- Get 3 common Spices in any combination, including brown cubes, and put them in the cloth bag.

To easily remember the new options, the board in Piece of Cake includes another Shopping action slot with reminders for them.

Please note that both Shopping spaces are **exactly the same** and can be used for anything you want to buy, **regardless of what is written on each one**.

## 5. SPECIALIST

The Specialist is a “special” worker that you can use in your games. It lasts twice as long as the other Hourglasses in the game but can perform vastly improved versions of the actions.

When playing with the Specialist, shuffle the Specialist Ability cards and reveal 3 of them at random. These 3 cards indicate the actions that the Specialist can perform improved versions of. As a reminder, place a Specialist token on each corresponding action on the board.

During the Action Phase, when the Specialist worker is used to perform an action with a Specialist token next to it, you may remove the token and perform an improved version of the action, as indicated on the corresponding Specialist Ability card. If you do, remove the Specialist token from the board and place it next to the Specialist Ability card - each ability may only be performed once per round.

The Specialist worker can also be used as a regular worker and perform any of the available action slots on the board, as normal.

During the Cleanup Phase, when paying wages for your workers, the Specialist is paid 1 coin for each Ability that was used (with a minimum of 1 coin). If you are unable to pay wages for all of your workers and need to leave one or more Hourglasses aside, you may not choose the Specialist Hourglass for that.

At the end of the round return all Specialist tokens back on the board, on their previous spaces; the abilities will once again be available during the next round

If you wish to introduce the game to new players and prefer to leave the desserts out of it, you can still include the Specialist - in fact, it will make the game easier for them. To do so, just remove the Specialist Ability cards that refer to actions on the new board and play with the rest.

## 6. F.A.Q.

**If there is an Ice-Cream Order tile on top of an Order and I use the Maitre D' action to replace that Order, what happens?**

Both the Order and the Ice-Cream Order tile are discarded and you draw a new Order. You do not place a new Ice-Cream Order tile on top of it. If you want it to have an Ice Cream you will have to use the Maitre d' action again.

**If there is an Ice-Cream Order tile on top of an Order and I use the Maitre D' action to replace that Order, what happens?**

Both the Order and the Ice-Cream Order tile are discarded and you draw a new Order. You do not place a new Ice-Cream Order tile on top of it. If you want it to have an Ice Cream you will have to use the Maitre d' action again.
